

My amazing and wonderful journey ends today!

This journey has been an enriching and wonderful experience like no other in my life. It may seem like just making friends and sharing fellowship but really is an experience that touches the heart warmly.

And I know I could not have enjoyed this show better without all of you by my side. The members of the Clubs in Singapore and East Malaysia were very welcoming and hospitable and helps put me at ease with them. I am very thankful to all of you for that.

In particular, I really would like to mention PDC Nany Gotze. When I took on this role and need to visit our sister clubs in East Malaysia, I was really apprehensive. It is like an overseas business assignment to most of you but I have no experience with such.

Nany was very forthcoming and agreed to accompany me on my walk-about.

My Executive Committee was very inspiring especially National Representative Rokiah and District Secretary Gillian.

My very special gratitude to them for their guidance and encouragement.

There was then the District AGM with President Dr Kapila as our Guest-of-Honour. It went very well with the support of all and I believe Dr Kapila was very impressed when she saw the full contingent of Clubs marching in with their colours.

As for our Bid for the Triennial Inner Wheel Conference, it was unfortunate we had failed in our bid, but I know we did not lose because of lack of effort or a less deserving presentation.

Lastly, I wish the new Executive Committee under the leadership of Datuk Nancy Ho a fruitful and incredible year.

Lucia
